

## A Report on Prosimulator Software Training

Two days' workshop was organized on **Prosimulator** software for final year Mechanical Engineering students on 12.09.2023 & 13.09.2023 at CAD lab offered by SIM INFOSYSTEM Pvt Ltd, Chennai. The teaching and Non-teaching staff members of Mechanical Engineering were also take part in this programme. On the first day of this programme during Forenoon session, the importance of this software was emphasized by the trainer **Mr. M. Suresh Kumar**, Manager – Training (Sim Infosystem Pvt Ltd). The software was installed successfully in the computers. The Afternoon session was handled as Demo class. The students practiced the sample exercises in computers.

In day -2 programme, the real time problems in thermal power plant was given to the students and they could able to solve it. The number of modules in the software were demonstrated to the students. The students and staff members learned lot about this software in the training. They can able to solve Thermal, Petro chemical refineries simulation project work by their own.

Mr.M.Sureshkumar explains the software to the students.
